Street- and Address-register for Norway

Proper addressing is required to avoid mail to be delayed or returned. We offer two types of registers for sale. By using the registers you will always have the correct spelling of the street name, and correct postal addresses.

1 What is the content?

Both registers contain official streets that are registered in "Matrikkelen" from the Norwegian Mapping Authority, as well as streets that have not yet been registered in "Matrikkelen", but where Norway Post delivers mail.

Furthermore, the register contains a list of all postbox addresses in Norway. These are registered with from-to number, but with sequential numbers, such as PO Box 0001-0002 and 0004-0007.

Street Register for Norway

contains all street names with the street code, house number from-to and letter from-to, postal code, name of postal area, district code and name of municipality.

All streets are listed only once, with 0000 in the field of house number 9999 in the field of house number. The exception is the streets stretching across several postcode areas. These are specified with odd house numbers for themselves and the even house numbers for themselves, such as Storgata 0001-0015 and 0002-0016 Storgata.

Address Registry of Norway

contains all Street / road name with each house number and letter, postal code, name of postal area, district code and name of municipality, plus address number and street code.

All addresses are listed house number by house number in all streets and roads, such as Storgata 0001, Storgata 0002, Storgata 0003, etc..

2. Agreement

No agreement is required

Vendor Agreement:

For companies that develop or provide applications or resell the registers, a vendor agreement will be made. There are separate prices for vendors.

3. Prices

Both registers can be subscribed to or as single purchases. By single purchase we deliver the last updated register, while subscribers can download as often as needed, the registers is updated every Monday. A subscription runs until it is terminated.

- Street Register of Norway: NOK 8.000, - excluding VAT per. quarter (subscription) or pr. single purchase
- Address Register of Norway: NOK 10.000, - ex VAT pr. quarter (subscription) or pr. single purchase.

4 Formats

The data is delivered in both ANSI and Ascii format, fixed and variable field length (semicolon separated).

5 Delivery

The registers can be downloaded from Mybring.com, the registers are updated every Monday.

Main Updates happens in October.

6 Layout

See separate Appendix 1 for description of the file.

7 Ordering / Billing

Fill out the registration form. Appendix 2.

Invoicing is done in advance in January, April, July and October, or continuously through single purchase.

8 General Conditions

Street and Address Register is only for internal use. Resale of information is not allowed, including direct sales and applications / programs that contain data from Street and Address Register.

Termination of a subscription must be at least 10 days before the next show advance payment.

Remember that it often pays to combine Street and Address Register with the updated Postal Code Register for Norway as a free download.

Appendix 1: File layout

Street Register	
Position	Field
1-5	Street Code
6-35	Street Name
36-39	From Housenumber
40	From Letter
41-44	To Housenumber
45	To Letter
46-49	Postal Code
50-81	Name of Postal Area
82-83	District Code: Municipality
84-85	District Code: County
86-115	Name of Municipality

The street code is only unique together with the district code (County + Municipality). Some street names are split across multiple postal codes. These are then split by odd and even house numbers, ie 2-4-6 and 1-3-5 etc. For example the correct postcode for Plogveien 28 in Oslo is 0681, while Plogveien 27 has postcode 0679.

Address Register	
Position	Field
1-14	Address Number
15-19	Street Code
20-49	Street Name
50-53	House Number
54-57	Letter
58-60	Section
61-64	Postal Code
65-96	Name of Postal Area
97-98	District Code: Municipality
99-10	District Code: County
101-130	Name of Municipality

The street code is only unique together with the district code (County + Municipality). House number 0000 means that the address point does not have house numbers. This value must be replaced with blank.

Postbox Register	
Position	Field
1-30	The string «POSTBOKS»
31-34	From Postbox Number
35-38	To Postbox Number
39-68	Postbox Office Name
69-72	Postal Code
73-104	Name of Postal Area
