1. SCOPE

These service terms ("the Terms") apply to services that Posten Bring AS, org.nr 984661185 ("Bring"), provides for contract customer ("the Customer"), jointly "the Parties". The Terms are valid for cross-border shipments from Norway to abroad and return shipments. The latest version of this document shall always apply and is available at bring.no/en/terms-and-conditions.

2. PRICES AND FEES

The Customer shall pay prices and fees as agreed. If there are no specially agreed prices, Bring's standard prices and price lists in effect at the time, shall apply. Bring has the right, in addition to the freight price, to charge fuel surcharges and sulphur surcharges, and to adjust these surcharges continuously without prior notice to the Customer. Current standard price lists and applicable fees and surcharges are available on bring.no/en/prices. All prices are stated exclusive of VAT.

Bring has the right to adjust the prices as compensation for increased fuel costs, currency fluctuations, government levies, or other circumstances beyond Bring's control.

Bring reserves the right to apply seasonal surcharges during certain periods, for example in cases of increased volume or limited transport capacity. Details regarding seasonal surcharges and their rate will be published at bring.no/en/prices at least 30 days before the entry into force.

3. ORDER AND EDI

All shipments shall be notified to Bring in advance via EDI transfer. The Customer is responsible for ensuring that complete EDI information, according to Bring's applicable requirements and specifications at the time, is available to Bring before collection or drop-off, see developer.bring.com. The Customer is responsible for any third party or agent that the Customer engages to send EDI transfers to Bring.

4. PACKAGING

The Customer is responsible for ensuring that shipments are packed to withstand normal transport handling, which may involve several reloading and sorting during the transport. Bring does not accept unpackaged goods. Sufficient packaging is a prerequisite for the possibility of compensation in case of depreciation or damage.

- The packaging shall be damage-free and ensure that neither the Customer's nor other goods are damaged.
- Goods loaded onto pallets shall be accommodated within the pallet edge and be packed to ensure they remain stable and collected during the entire transport.
- Liquid contents and powder shall be packed in a way that allows the entire contents to be absorbed inside the outer packaging in case the inner packaging is damaged.

5. MARKING AND SHIPMENT DOCUMENTS

The Customer is responsible for ensuring that shipments have sufficient documentation and labelling for the assignment to be carried out. Labelling of shipments must comply with Bring's applicable requirements and specifications, see developer.bring.com.

A transport label, legible both by machine and manually, must be attached clearly visible on each parcel and pallet.

All bulk shipments and pallet shipments must be supplemented with routing label and CMR and/or Waybill. For bulk shipments consisting of multiple pallets, each pallet shall be labelled and numbered, for example 1/3, 2/3, 3/3, and so on.

Shipments sent across a customs border must be supplemented with complete customs documents. Two copies of the commercial or proforma invoice must be included per parcel, pallet or bulk split batch. To obtain fast-track clearance (simplified customs), the country of origin for EU/EEA goods must be documented.

6. SHIPMENT AND CONTENTS

The Customer is responsible for ensuring that shipments and their contents do not conflict with the Terms or trade restrictions, laws and regulations at any time. Bring has no obligation to investigate the contents, documentation or packaging. The Customer must compensate Bring and other injured parties for damage that occurs due to the Customer violating the Terms.

6.1 Dangerous goods

Dangerous goods may not be sent with Bring, except for limited quantities of dangerous goods, which are permitted for certain services and destinations. For what is defined as dangerous goods, please refer to The Norwegian Directorate for Civil Protection, see dsb.no.

- Valuables, e.g., precious metals, gemstones, real pearls, exclusive watches, antiques, or the like
- Tobacco and nicotine products, such as cigarettes, snuff, tobacco or the like
- Weapon and parts of weapons, according to applicable law and classification in the customs tariff, or ammunition
- Human remains, body parts, organs, and urns or similar containing ash
- Living or dead animals

6.4 Maximum permitted value

Shipments may not have a content with a value that exceeds NOK 100,000 per parcel and NOK 1,000,000 per pallet.

7. PICKUP

Pickup arrangements are made on a customer-specific basis, with details agreed upon with the Customer for the duration of the agreement.

8. DELIVERY

Delivery is made to the specified delivery address, provided that the transport route consists of a passable road. The Swedish Road Ferries, part of the

Swedish Transport Administration, are considered a passable road. Shipments to islands without a road bridge connection are normally delivered to the harbour office or quay.

9. RECIPIENT-SELECTED DELIVERY CHOICES

For certain services, Bring may offer the recipient alternative delivery choices, allowing the recipient to decide the delivery location or make other adjustments to the delivery. Examples of such delivery choices may include redirection to another delivery location, extended storage time, or delivery without signature (Flex Delivery).

Recipient-selected delivery choices are only performed provided the recipient has made a choice or placed an order and has accepted the terms for the delivery choice. Certain delivery choices are performed only after that Bring has received payment from the recipient.

10. SPECIAL HANDLING

For shipments that Bring deems cannot be handled and sorted according to standard procedure, Bring reserves the right to charge fees for special handling. This may apply for parcels where the longest side (length) exceeds 120 cm, two sides exceed 60 cm each, or one/several sides fall below the applicable minimum dimensions. It may also include shipments of irregular shape, rolls, tubes or similar, and shipments without proper packaging.

11. TRACKING OF SHIPMENTS

Tracking of shipments is available through Bring's digital solutions and in some cases through external partner's solutions. Tracking normally begins at the shipment's first scanning point and continues through to handover or delivery. For single parcels or pallets, the first scan is normally performed at pickup or drop-off. For parcels sent as bulk shipment, the first scan generally takes place after split of the bulk shipment, at the sorting terminal to which the bulk shipment is routed/addressed.

Bring has the right to pass on information and personal data concerning senders and recipients to external partners, to enable tracking in current interfaces and tracking tools. The Customer is responsible for obtaining the necessary consent from the sender and recipient.

12. LIABILITY

Liability is governed by NSAB 2015. Bring's responsibility for shipments begins when Bring receives the shipment and ends when the shipment has been delivered or handed over. For parcels sent as bulk shipments, Bring's responsibility for each parcel begins only from the first physical scanning point of the parcel, which normally is performed after split of the bulk shipment, at the sorting terminal to which the bulk shipment has been routed/addressed.

Cross-border parcels and pallets do not have any form of time guarantee. The Customer is responsible to obtain and pay for insurance as specified in §25 A., NSAB 2015.

Bring shall in no case be liable for any indirect or other consequential loss or damage.

1.5 Signature Required (1280)

Signature is required upon delivery. A person other than the specified recipient can also receive the shipment and sign for it. Any possibility for Flex Delivery and delivery against power of attorney is blocked.

1.6 Flex Delivery (0041)

Contactless delivery. The shipment is delivered outside the recipient's door or at another specified location on the delivery address, without requiring anyone to be present to receive or sign for the shipment. Any entry code or intercom, required to access the delivery location, should be provided in EDI.

At delivery Bring registers the shipment as delivered, which is considered sufficient proof of delivery. Bring may also take a photo documenting that delivery has been made. Once the shipment has been delivered in this manner, the goods and their packaging are considered to have been in visibly good condition. Bring is not responsible for damage or loss occurring after delivery.

1.7 Delivery Indoors (0039)

The shipment is carried to a specified location according to the provided instructions in the EDI. Delivery is made to a single location, regardless of the number of parcels. The maximum weight per parcel is 35 kg.

If the additional service is combined with the service Business Pallet, the pallet is split, and each parcel is carried to the specified location. The packaging and the pallet are returned to Bring's terminal for recycling or destruction.

- The path to the specified location must be clear and free from obstacles.
- For delivery more than four (4) floors up, access to a lift is required.
- The recipient is responsible for protecting any fragile floors.

If the conditions are not met, the delivery will be made without carrying the parcels/items in. Any additional delivery attempt (in case of obstacles at the first attempt) will also be made without carrying the parcels/items in.

1.8 E-Advising (0091)

For parcels handed in to a parcel locker (available only in Sweden), the sender should write a numeric label free code directly on the parcel.

If a service point cannot print the shipping label, the sender is instead asked to write a numeric label free code directly on the parcel. If the sender does not have access to the parcel's label free code, the service point can provide this to the sender based on the parcel's QR code.
