		dd	mm	yy	yy				
4	32	2	2	2	2	4	32	1	1

OBS;In the tab for new postcode the number 9999 may occur. This means that the new postcode belongs in one of the towns that have multiple postcodes and that the post address determines which postcode is correct. Postcode can also be terminated. Changes of address levels can be found in the conversion tables that are published yearly on the 1th of October.

The post address refers to street/road name and number, PO number, etc.

Note that files for new postcodes and changed/terminated postcodes respectively must be seen in context. Postcodes can be restored.
